Economic Impact

A background photograph of a construction site at night. Several workers in orange safety vests and hard hats are working on a large steel structure. One worker is in the foreground on the left, another is in the middle ground, and a third is further back. They are positioned around a large, orange, U-shaped steel component that is being lifted or lowered by a crane. The scene is illuminated by artificial lights, creating a high-contrast environment with deep shadows and bright highlights on the workers and the steel.
